Liberty Chevrolet;
G and W Builders, builder.

Tracy Chevrolet;
Charles J. Faszer Inc., builder;
Shack & Co., architect.

" Richard Hedman Inc., has been our Star Builder for many years. When we built our new Infiniti dealership, a steel building gave us the clear open areas we needed, and the materials are environmentally friendly. The steel building gave us the design flexibility that we required and still kept the cost in line."
--- Larry McKoane, owner of Clawson Infinity.

Central Chevrolet;
B. B. Vance & Sons, Inc., builder;
Little & Maddox Architects.

Mitchell Construction Contractors, Inc., builder.

Automobile dealerships present a unique challenge in the marketplace, and a Star Building System can provide a cost effective and aesthetically appealing solution.

A Star Building System provides design flexibility, as well as energy efficiency and lower maintenance costs. Your dealership can be designed with high ceilings or column-free interiors providing wide, clear floor space for maximum showroom and shop requirements.

Star Building Systems for Auto Dealerships

Larry Smith Toyota;
Hickory Construction, builder;
Philippe Gilissen, architect.

Star Building Systems blend with any conventional exterior. A mixture of glass, brick, stone and other veneers will accent your buildings beauty and will compliment the surrounding environment.

Star Buildings are energy-efficient, and save on future upkeep and maintenance costs.

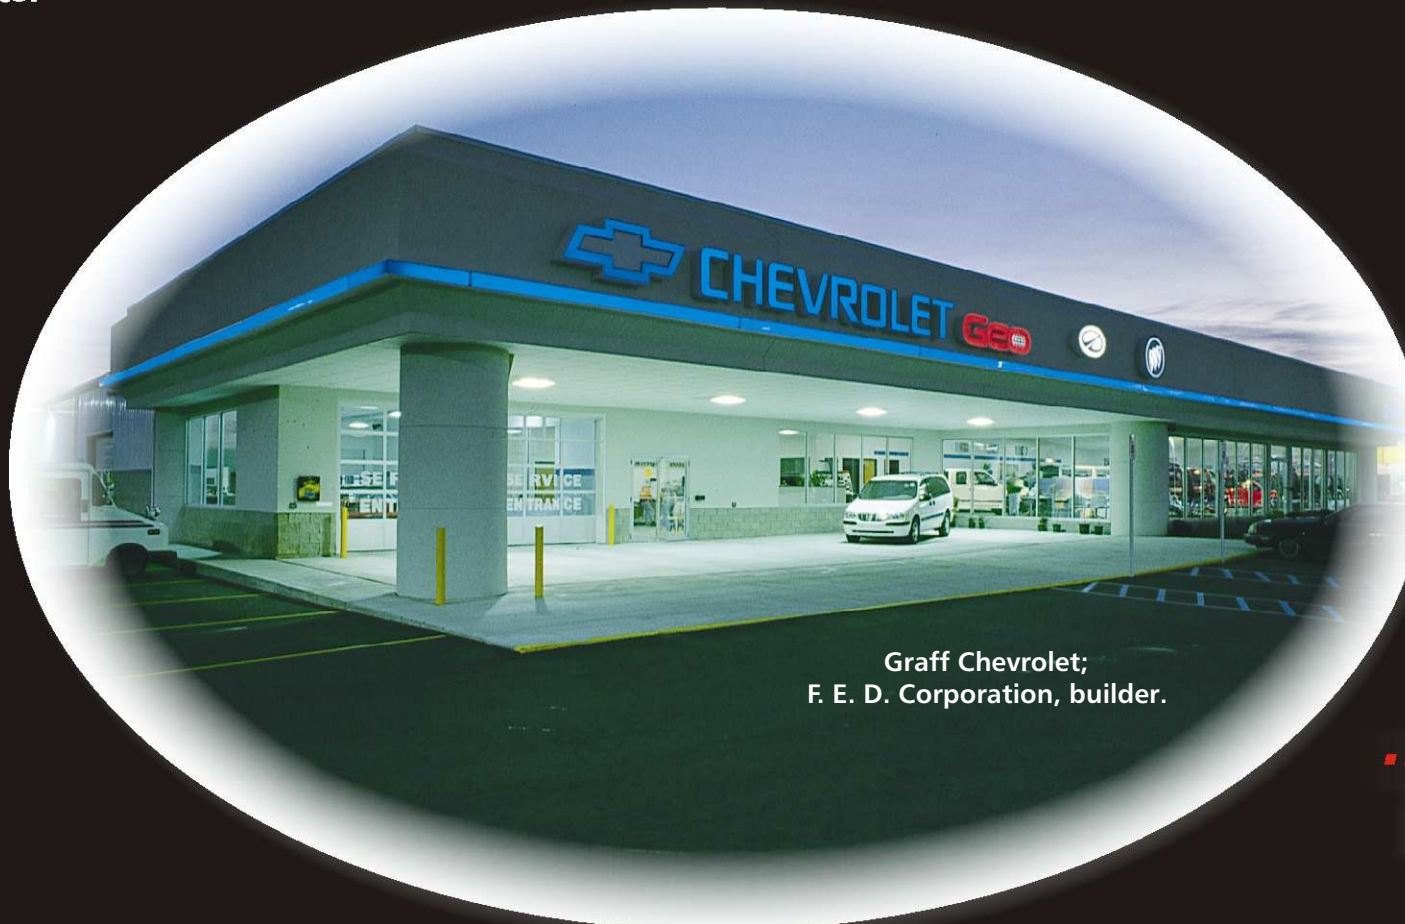

When it comes to building a new automobile dealership, call a Star Builder. They can consult with you about site selection, specifications, interior design and landscaping. Let them develop a solid plan that includes a Star Building System. Call one today!

Star Building System is flexible with any conventional exterior...

Your Star Building System can be completely customized by you. The variations available with Star's six structural systems provide countless building design possibilities that will fit your exact specifications.

Each Star Building is individually engineered and designed to meet all requirements, as well as local building codes.

With careful planning, your building will be as functional as you need it to be. This planning allows for easy and economical expansion.
